PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

---

PROJECT NUMBER: 5265                      SESSION NUMBER: 01  
DATE OF SESSION: 9 MAY 89              DATE OF REPORT: 10 MAY 89  
START: 0944                              END: 1052  
METHODOLOGY: SOLO                      VIEWER IDENTIFIER: 018

---

1. (S/NF/SK) MISSION: Conduct search and identify target site via event and personalities.
2. (S/NF/SK) VIEWER TASKING: Viewer 018 tasked with requirements outlined in Para 1, above. Conduct search using a map of South America.
3. (S/NF/SK) COMMENTS: No inclemencies noted. A Summary of Information is attached to this report.
4. (S/NF/SK) EVALUATION: (3)
5. (S/NF/SK) SEARCH: (1) Direct dowsing with an implement (pencil).

WORKING PAPER

Project: **5265**  
Date: 890509  
Viewer: 018  
Session: 01

SUMMARY OF INFORMATION:

1. (S/NF/SK) The general target area is a city or town surrounded by lush vegetation, and high, bare mountains in the near background. The target person is a caucasian male of medium height and build and slick, black hair. He speaks good, grammatically correct Spanish (as opposed to "street" Spanish). He dresses well and has the appearance of importance. His principal location appeared to be in an office setting, but when he works, he goes out to meet people, rather than them coming to him.
2. (S/NF/SK) Dowsing was first performed on a full-color map of South America, in the World Atlas. Absolutely no impressions were gained from this map.

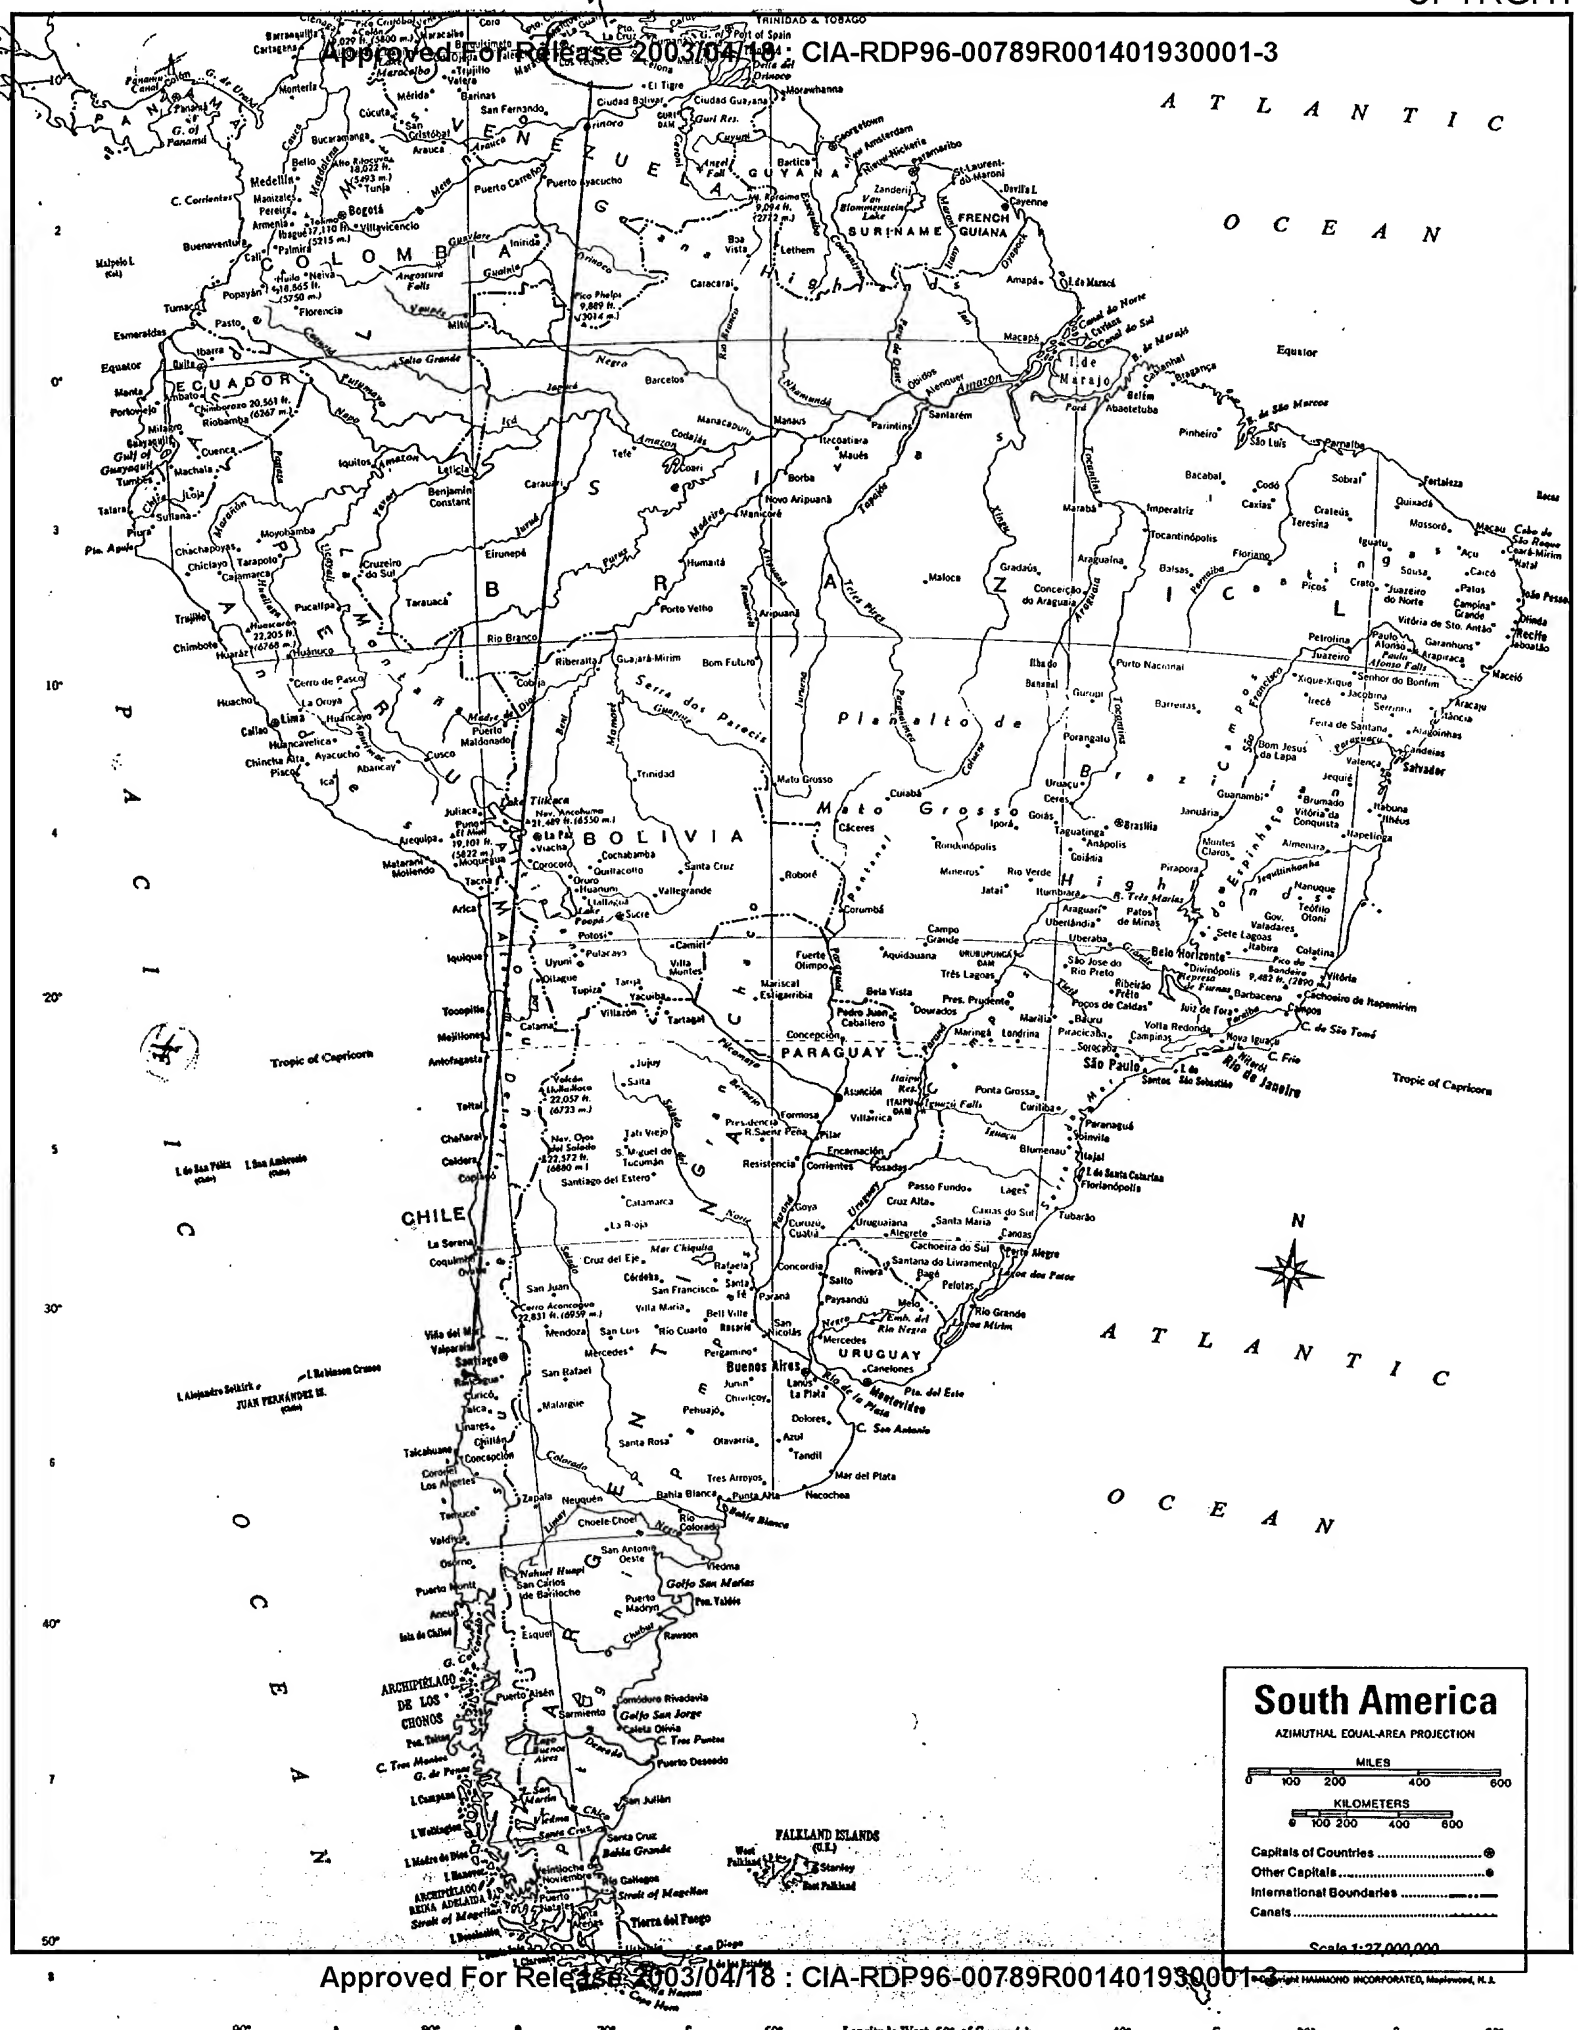

An attempt at absolutely pure dowsing was then tried, using the back (blank side) of an 8 1/2 X 11 xeroxed map of South America (included as page 6A). Closing my eyes, I spun the paper so I would not know which side was north, and, with eyes still closed, began to run my pencil lightly over the blank page, feeling for impressions. Wherever an impression was felt, I made a darker mark with the pencil (see darker markings, page 6A). I then took a break. This same procedure was repeated 4 times, with breaks in between the dowsings, being careful to never look at the markings previously made. At the end of the session, I found that 4 of the marks had intersected at one point on the page. A hole was pressed into the paper at that point. On the other side of the map, the hole was located near Santiago, Chile.
